Emirates Steel ARKAN Sustainability Values, Mission, and Vision

Sustainability Value:

At Emirates Steel Arkan, we believe in doing business sustainably, we are committed to sustainability principles of inclusivity, integrity, stewardship, respect, collaboration, and transparency. We care about our impact on the environment, our employees, and the communities we operate in. That's why we have three core sustainability values that guide everything we do:

- **Environmental Stewardship:** We want to protect the planet for future generations. That's why we're committed to reducing our carbon footprint, conserving resources, and preventing pollution.
- **Social Responsibility:** We care about the people who work for us and the communities we operate in. We want to create safe, healthy, and prosperous environments for everyone.
- **Economic Viability:** We know that sustainability is not just about doing good - it's also about doing well. That's why we strive to balance the needs of our stakeholders and invest in sustainable growth.

Sustainability Mission:

Our mission at Emirates Steel Arkan is to contribute to the creation of a sustainable society by providing climate-neutral and responsibly produced steel and building material products which are essential for transition to a green energy and low carbon economy. We want to:

- Be a leader in the industry's transition to a low-carbon circular economy.
- Continuously improve our environmental, social, and economic performance by working with others and being innovative.
- Listen to our stakeholders and address their sustainability concerns openly and transparently.
- Help the UAE achieve its sustainable development goals and contribute to global efforts to mitigate climate change.

Sustainability Vision:

At Emirates Steel Arkan, we have a bold vision for the future. We want to:

- Be known as a company that produces steel and building materials sustainably and responsibly.
- Achieve carbon neutrality by 2050 by investing in decarbonization measures and clean energy.
- Use resources efficiently and minimize waste throughout our value chain.
- Inspire others to join us in creating a sustainable future.
